How the answers differed

Each group below shows how its members voted. Small groups move a lot on a single ballot — read them with care.

By age

45–54 — 1 ballot

Creating jobs for young people 100.0% (1)

By gender

Male — 1 ballot

Creating jobs for young people 100.0% (1)

By district

Maseru — 1 ballot

Creating jobs for young people 100.0% (1)

By education

Postgraduate — 1 ballot

Creating jobs for young people 100.0% (1)

By employment status

Employed full-time — 1 ballot

Creating jobs for young people 100.0% (1)

By monthly household income

M20,000 and above — 1 ballot

Creating jobs for young people 100.0% (1)

About this poll

This was an open online poll of OurInsights readers. It is not a representative sample of the population of Lesotho: everyone who took part chose to do so, and people who feel strongly about a question are more likely to answer it. The figures describe the readers who responded, and nobody else. One ballot was allowed per reader.

Demographic answers were given voluntarily and are stored with the ballot, never with a name or address.
